It is a good habit to use  
an antiseptic mouth wash.  
Regular, daily use may  
prevent serious illness.

Typhoid and other  
germs are introduced into  
the system through the  
mouth. Food and drink  
are impregnated with infec-  
tion. You protect yourself  
against these evils if you  
rinse mouth and teeth regu-  
larly.

## OVER-NIGHT FEDERAL WIRELESS To the Advertiser

Reports reaching El Paso tonight  
state that Minister of War Blanquet  
has dispatched a force of fed-  
eral troops to the million-dollar con-  
crete bridge of the Kansas City, Mis-  
souri & Orient Railway, crossing the  
Coches river on the outskirts of Chi-  
huahua, with instructions to await or-  
ders to blow up the structure should  
recession arise. This indicates that  
the situation is considered grave in  
the City of Mexico and that Huerta  
determined to precipitate a conflict  
when other resources fail, is plan-  
ning to at once cut off all lines of  
communication toward the City of  
Mexico should the United States begin  
sending troops across the border from  
Texas.

Huerta's announced intention of ap-  
pealing to the patriotism of all Mexi-  
cans in the event of American inter-  
vention is expected to be made be-  
tween now and the date set for the  
national election.

Persons arriving at El Paso from  
City of Mexico tonight state that con-  
ditions there resemble a smoldering  
fire awaiting a favorable draft to  
burst out into flame and involve Mex-  
ico in a struggle the like of which  
has not been witnessed in that repub-  
lic for the past three-quarters of a  
century.

A condition of armed neutrality  
now exists between the troops at  
Juarez and residents of El Paso and  
for days persons engaged in business  
here who have their homes on the  
south side of the Rio Grande have re-  
mained on American soil rather than  
cross over.

Sylvia Pankhurst, daughter of Mrs.  
Emmaline Pankhurst, militant suffra-  
gette leader, arrived in London from  
Paris last night. It is believed she  
will remain there much of the time  
while her mother is visiting in the  
United States.

In a statement recently Miss Pank-  
hurst said that she believes the  
American people are too broad minded  
and liberty-loving not to grant her  
mother a full hearing of her side of  
the suffrage question and a defense  
of the action of the women of Eng-  
land who are battling for the right to  
vote.

The Matson liner Wilhelmina, Cap-  
tain Charles Peterson, arrived early  
from Honolulu with many passengers  
and a cargo of island products.

Colonel Sam Parker, who was a  
passenger on the liner, is going East  
and expects to make the trip back to  
this coast as a passenger on the new  
liner Matsonia. The liner was given  
quick dispatch from quarantine owing  
to the fact that Dr. L. L. Sexton of  
the United States public health ser-  
vice, who was quarantine officer at  
Hilo, was a passenger and had made  
the official inspection yesterday.

The steamship Victoria, after dis-  
charging cargo at Nome, sailed last  
night for Solomon, a placer mining  
camp of 300 inhabitants, 40 miles  
southeast of Nome, and which is re-  
ported to have been destroyed by the  
great tidal storm. More than a score  
of lives must have been lost in the  
storm besides the eight drowned at  
Nome. More than a dozen are reported  
to have perished in small vessels  
at sea. Nearly all the gasoline boats  
in northern Bering sea are de-  
molished.

It was announced by the foreign of-  
fice at Mexico City last night that  
the status quo between the United States  
and Mexico remains unchanged as a  
result of the interchange of recent  
notes between the two nations. Be-  
yond this the foreign office would give  
out no information as to the contents  
of the notes which within the past 24  
hours have been exchanged between  
President Wilson and his advisers  
and President Huerta and his cabinet.

That the Volturro fire was caused  
by a carelessly dropped cigarette or  
cigar is the opinion expressed  
today by Frederick Ratke, one of  
the passengers saved by the French  
liner Touraine.

"It was I who gave the alarm," de-  
clared Ratke. "In spite of warnings  
the immigrants insisted on smoking.  
I think one of them carelessly  
dropped a lighted cigarette or cigar  
into the hold."

Confident of acquittal, Mrs. Jennie  
May Eaton today was tried on trial  
for the poisoning of her husband, Ed-  
ward Eaton, today. Mrs. Eaton rode  
from jail to the courthouse this morn-  
ing in a covered prison van in order  
to escape the gaze of the curious. The  
widow entered the courthouse from  
the rear and passed through private  
rooms to the courtroom.

Sheriff Frederick Hornbeck of  
Duchess County today appointed Vin-  
cent Astor, the richest young man of  
his age in the world, a deputy. The  
appointment was made at the request  
of the young millionaire, who ex-  
plained that he wished to organize a  
model police force on his estate at  
Ferncliff.

Secretary of State Bryan today de-  
clined an invitation to debate with a  
Socialist at Carnegie hall, New York.  
The committee wrote Mr. Bryan that  
he might choose his own date and  
that his expenses as well as his regu-  
lar lecture fee would be paid. Bryan  
pleaded pressure of business.

The Mexican situation was the sole  
topic discussed at the cabinet meet-  
ing in the White House today. The  
United States at present has three  
warships in the vicinity of Mexico and  
is holding others in readiness to be  
rushed into Mexican waters.

Fifteen-year-old Bobbie Crawford, a  
messenger who rode in front of Pres-  
ident Wilson's automobile a few days  
ago, was a happy lad today. When  
he left the hospital fully recovered he  
received a brand new wheel, the gift

## LEIPSI DAY PROGRAM NOW IS ARRANGED

## 6,380,000,000 NICKELS GO TO MOVIES YEARLY

Chairman Frank A. Tichenor of the  
First International Exhibition of the  
Moving Picture Arts, New York, com-  
pleted tabulating moving picture sta-  
tistics, which show that 6,380,000,000  
nickels are paid yearly by 3,600,000,000  
persons who love the "movie" shows.

The figures, which are the first of-  
ficial ones ever prepared in this coun-  
try, are expected to create considerable  
interest not alone among moving  
picture men but among the public.  
The figures show that 1,317,000  
was received in quarters, dimes and  
nickels; that \$80,000,000 is lavished in  
the industry; that more than 300,000  
persons are employed; and that 10,  
000,000 feet of picture films are pro-  
duced weekly.

The statistics show a decrease in  
saloon licenses in some of the smaller  
cities, which is attributed to the wage  
earners' money going to the "movies."  
Instead of "the poor man's club." The  
statistics will be illustrated by a mov-  
ing picture called "The Shrinking  
Demijohn," in which a monster demijohn  
is made by means of trick pho-  
tography to decrease in size, while  
at the same time a moving picture  
theatre grows from a toy size to nor-  
mal proportions.

Mr. Tichenor will protest against  
the action of the building department  
in ordering the exits of the new Grand  
Central Palace enlarged and the floors  
reinforced in anticipation of the re-  
cord-breaking crowds expected. The  
matter will probably be taken to the  
courts, as architects employed by Mr.  
Tichenor report that the load per  
square foot allowed by the depart-  
ment's regulations comes within the  
estimated weight of the mechanical  
exhibits and possible attendance.

### CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" best for  
tender stomach, liver, bowels  
—tastes delicious.

Look back at your childhood days.  
Remember the "dose" mother insisted  
on—castor oil, calomel, cathartics.  
How you hated them, how you fought  
against taking them.

With our children / it's different.  
Mothers who cling to the old form of  
physic simply don't realize what they  
do. The children's revolt is well-  
founded. Their tender little "insides"  
are injured by them.

If your child's stomach, liver and  
bowels need cleansing, give only deli-  
cious "California Syrup of Figs." Its  
action is positive, but gentle. Millions  
of mothers keep this harmless "fruit  
laxative" handy; they know children  
love to take it; that it never fails to  
clean the liver and bowels and sweeten  
the stomach, and that a teaspoonful  
given today saves a sick child tomor-  
row.

Ask your druggist for a 50-cent bot-  
tle of "California Syrup of Figs,"  
which has full directions for babies,  
children of all ages and for grown-ups  
plainly on each bottle. Beware of  
counterfeits sold here. See that it is  
made by "California Fig Syrup Com-  
pany." Refuse any other kind with  
contempt—advertisement.

of the president, and a personal  
letter.

Congressman Kahn left for Boston  
tonight to join in the campaign to  
elect Congressman Augustus Gardner,  
governor of Massachusetts. He will  
spend several days on the stump deal-  
ing with the Democratic administra-  
tion from the national viewpoint.

There was not a woman among the  
30 survivors of the Volturro brought  
to Gravesend today by the liner Min-  
neapolis. Several of the rescued  
charged the crew of the Volturro  
with abominable cowardice.

Anyway, a mere man can wear his  
best hat in the rain without getting  
the curl out of the feathers.
